

STANFORD UNIVERSITY
DEPARTMENT OF ECONOMICS

ECONOMICS 101 (5)

FALL 2019

Economic Policy Seminar

The Demographics and Economics of Aging in the U.S.

Instructor: Gopi Shah Goda
SIEPR Gunn 205
736-0480
gopi@stanford.edu

Time and Location: Tuesdays/Thursdays 9:30 – 11:20, Econ 106

Office Hours: Fridays 1:00 – 3:00, or by appointment

Teaching Assistant: Beatriz Pousada (bpousada@stanford.edu)

Executive Assistant: Amber Sanchez Crowe (ascrowe@stanford.edu)

Section Time and Location: Weeks 1/2 and 4, Time/Room TBD

TA Office Hours: TBD

Objective of the Course: To develop oral and written skills in order to analyze and convey economic ideas effectively.

Description of the Course: This class has two equally important goals: (1) to understand the role of changing demographics in the United States and its implications for policy regarding public and private institutions, and (2) to learn how to communicate economic ideas clearly and effectively in both oral and written form.

We will accomplish the first goal by investigating research and policy writings on two main topics: health care and retirement policy in the United States. You will learn about the implications of population aging for economic institutions, current research on related topics, and proposals and ideas to reform these institutions for future generations.

Along the way, we will be developing critical thinking skills to assist in the second goal of this course, improving written and oral communication in economics. As this course fulfills the Writing in the Major requirement for the economics department, there will be a series of

assignments that build towards writing a final paper for the course. This paper will be on topics related to the material presented in this course but must bring an improvement over the scope and the depth of class discussion.

Textbooks: There are no required textbooks for this course; however we will draw on material from:

- *The Craft of Research* by Wayne C. Booth, Gregory G. Colomb and Joseph M. Williams
- *Economical Writing* by Deirdre N. McCloskey
- *A Guide for the Young Economist* by William Thomson
- *The Elements of Style* by William Strunk Jr. and E. B. White

Attendance: Required.

Late assignments: Not accepted.

Economics Department Common Course Policies: All courses taught in the Stanford Department of Economics are governed by a common set of course management rules. A document explaining these rules is available at <https://economics.stanford.edu/undergraduate/major/economics-common-syllabus>. Please familiarize yourself with these rules and contact me if you have any questions.

Grading:

Class participation	50**
Problem set	50**
Research topic worksheet	25*
Preliminary results	25*
Full paper draft	25*
Course reading discussion	50**
Final paper presentation	75**
Final paper + response to comments	200**

Total: 500 points

* Full points will be awarded if assignment is completed and turned in by due date.

** Points will be awarded based on grading criteria provided in class if assignment is completed by due date.

No late assignments will be accepted. There will be no exceptions.

A brief description of these assignments is below; more details regarding the assignments will be provided in class. Written assignments should be completed in a suitable font (e.g. Times New Roman, 12 point size) and double spaced so there is room for comments.

Class participation: You should be prepared to participate in the discussion of class readings throughout the quarter. Part of the class participation grade will also come from your engagement with in-class exercises and the discussions led by other students.

Problem set: You will be given step-by-step instructions to partially replicate an academic paper using a publicly-available data source and statistical software. To get full credit for the assignment, you will be asked to submit your code, the output of the code, and responses to a set of questions about the exercise.

Course reading discussion: You will be required to lead the discussion of one course reading of your choice on a specified day.

Research topic worksheet, preliminary results, and draft of final paper: These assignments will help you make progress towards your final paper. The first two will be discussed during required meetings with the professor and teaching assistant. We will provide you with detailed written comments on the draft of your final paper.

Final paper presentation: Each student will do an 8-10 minute oral presentation of their paper to the class. It is recommended that you use PowerPoint slides that boil your paper down to the main points of your analysis in a clear and concise manner.

Final paper + response to comments: Your final paper should be 10-12 pages in length (not including tables, figures and references) and make a substantive economic argument backed up by evidence. Revisions of the paper between the first and final draft of your paper are *required* and you must also provide written responses to each of the detailed comments provided on your first draft. The grading of the final paper will be based on how well and how completely you respond to the comments you are given on your first draft.

Course Schedule and Due Dates:

<i>Week</i>	<i>Date</i>	<i>Topic</i>	<i>Assignment Due</i>
1	9/24	Introduction: Demographics and Aging	
	9/26		
2	10/1	Topic 1: Health Care and the Elderly in the United States	
	10/3		
3	10/8		Problem Set
	10/10		
4	10/15	No Class ; Meet with Professor/TA about Research Question	Research Topic Worksheet
	10/17		
5	10/22	Topic 2: Health Insurance and the Labor Market	
	10/24		
6	10/29	No Class ; Meet with Professor/TA about Preliminary Results	Preliminary Results
	10/31		
7	11/5	Topic 3: Social Security, Pensions and Saving	
	11/7		
8	11/12		Final Paper Draft
	11/14		
9	11/19	Topic 4: Disability Insurance and Long-Term Care	
	11/21		
10	11/26	No Class ; Thanksgiving	
	11/28		
11	12/3	Final Paper Presentations	
	12/5		
12	12/8	Final Paper + Response to Comments (due on Sunday at 11:59pm)	

Reading List (*subject to change*)

Bold indicates paper to read in preparation for class discussion.

Introduction: Demographics and Aging

Lecture 1 (Sept 24): *Why care about aging?*

- Ben S. Bernanke (2006), “The Coming Demographic Transition: Will We Treat Future Generations Fairly?” Remarks by Chairman Ben S. Bernanke before the Washington Economic Club, October 4, 2006, <http://www.federalreserve.gov/newsevents/speech/bernanke20061004a.htm>
- CBO (2019), “Long-Term Budget Outlook,” <https://www.cbo.gov/publication/55331>
- Cezary Podkul and Heather Gillers (2018), “Why Are States So Strapped for Cash? There are Two Big Reasons,” *Wall Street Journal*, March 28, 2018.
- John B. Shoven (2007), “New Age Thinking: Alternative Ways of Measuring Age, Their Relationship to Labor Force Participation, Government Policies, and GDP,” NBER Working Paper 13476.

Lecture 2 (Sept 26): *Demographic trends*

- Ronald Lee (2003), “The Demographic Transition: Three Centuries of Fundamental Change,” *Journal of Economic Perspectives*, 17(4), pp. 167-190.
- Linda G. Martin, Robert F. Schoeni, and Patricia M. Andreski (2010), “Trends in Health of Older Adults in the United States: Past, Present, Future,” *Demography*, 47, pp. S17-S40.
- Raj Chetty, Michael Stepner, Sarah Abraham, Shelby Lin, Benjamin Scuderi, Nicholas Turner, Augustin Bergeron, David Cutler (2016), “The Association Between Income and Life Expectancy in the United States, 2001-2014. *Journal of the American Medical Association*, 315 (16): 1750-1766.
- Janet Currie and Hannes Schwandt (2016), “Mortality Inequality: The Good News from a County-Level Approach,” *Journal of Economic Perspectives*, 30 (2): 29-52.
- Michael Chernew, David M. Cutler, Kaushik Ghosh, Mary Beth Landrum (2016), “Understanding the Improvement in Disability Free Life Expectancy in the U.S. Elderly Population,” NBER Working Paper 22306.
- Anne Case and Angus Deaton (2017), “Mortality and morbidity in the 21st century,” *Brookings Papers on Economic Activity*, Spring 2017. <https://www.brookings.edu/bpea-articles/mortality-and-morbidity-in-the-21st-century/>
- Technical Panel on Assumptions and Methods (2015), Report to the Social Security Advisory Board, http://www.ssab.gov/Portals/0/Technical%20Panel/2015_TPAM_Final_Report.pdf?ver=2015-09-24-113145-693
- CEA (2014), “The Labor Force Participation Rate Since 2007: Causes and Policy Implications,” http://www.whitehouse.gov/sites/default/files/docs/labor_force_participation_report.pdf

- Alan Krueger (2017), “Where have all the workers gone? An inquiry into the decline of the U.S. labor force participation rate,” Brookings Papers on Economic Activity, Spring 2017, <https://www.brookings.edu/bpea-articles/where-have-all-the-workers-gone-an-inquiry-into-the-decline-of-the-u-s-labor-force-participation-rate/>.
- Joshua Montes (2018), “CBO’s Projection of Labor Force Participation Rates,” Working Paper 2018-04, March 2018, <https://www.cbo.gov/publication/53616>.
- Gopi Shah Goda and John B. Shoven (2008), “Adjusting Government Policies for Age Inflation,” NBER Working Paper 14231.

Topic 1: Health Care and the Elderly in the United States

Lecture 3 (Oct 1): *Health care spending and geographic variation*

- Jonathan S. Skinner, Douglas O. Staiger, and Elliott S. Fisher (2006), “Is Technological Change In Medicine Always Worth It? The Case of Acute Myocardial Infarction.” *Health Affairs* 25 (2):W34–W47.
- Joseph P. Newhouse and Alan M. Garber (2013), “Geographic Variation in Medicare Services,” *New England Journal of Medicine*, 368, pp. 1465-1468.
- Joseph P. Newhouse and Alan M. Garber (2013), “Geographic Variation in Health Care Spending in the United States,” *Journal of the American Medical Association*, 310 (12), pp. 1227-1228.
- **David Molitor (2018), “The Evolution of Physician Practice Styles: Evidence from Cardiologist Migration,” *American Economic Journal: Economic Policy*, 10 (1): 326-356.**

Lecture 4 (Oct 3): *Health insurance and utilization*

- Congressional Research Service (2015), “Health Insurance: A Primer,” https://www.everycrsreport.com/files/20150108_RL32237_5ec7ab29996bb919f1ab1be6e7c1460b2a01295c.pdf.
- Willard Manning, Joseph Newhouse, Naihua Duan, Emmett Keeler, Arleen Leibowitz, and Susan Marquis (1987), “Health Insurance and the Demand for Medical Care: Evidence from a Randomized Experiment,” *American Economic Review*, 77(3), pp. 251-277.
- Aviva Aron-Dine, Liran Einav, and Amy Finkelstein (2013), “The RAND Health Insurance Experiment, Three Decades Later,” *Journal of Economic Perspectives*, 27(1), pp. 197-222.
- Amy Finkelstein (2007), “The Aggregate Effects of Health Insurance: Evidence from the Introduction of Medicare,” *Quarterly Journal of Economics*, 122(1), pp. 1-37.
- Jonathan Gruber and Benjamin Sommers (2019), “The Affordable Care Act’s Effects on Patients, Providers and the Economy: What We’ve Learned So Far,” NBER Working Paper 25932.
- **David Card, Carlos Dobkin, Nicole Maestas (2008), “The Impact of Nearly Universal Insurance Coverage on Health Care Utilization and Health: Evidence from Medicare,” *American Economic Review*, 98(5), pp. 2242-2258.**

Lecture 5 (Oct 8 and 10): *Effects of health care spending on health*

- Joseph P. Newhouse (1992), “Medical Care Costs: How Much Welfare Loss?” *Journal of Economic Perspectives*, 6(3), pp. 3-21.
- David Cutler and Mark McClellan (2001), “Is Technological Change in Medicine Worth It?” *Health Affairs*, 20(5), pp. 11-29.
- Katherine Baicker and Amitabh Chandra (2004), “Medicare Spending, The Physician Workforce, and Beneficiaries’ Quality of Care,” *Health Affairs*, W4, pp. 184-197.
- Amy Finkelstein and Robin McKnight (2008), “What Did Medicare Do? The Initial Impact of Medicare on Mortality and Out of Pocket Medical Spending,” *Journal of Public Economics*, 92(7), pp. 1644-1669.
- David Card, Carlos Dobkin, Nicole Maestas (2009), “Does Medicare Save Lives?” *Quarterly Journal of Economics*, 124(2), pp. 597-636.
- **Sarah Miller, Sean Altekruze, Norman Johnson, and Laura Wherry (2019), “Medicaid and Mortality: New Evidence from Linked Survey and Administrative Data,” NBER Working Paper 26081.**

Topic 2: Health Insurance and the Labor Market

Lecture 6 (Oct 22): *Health insurance and job mobility*

- CBO (2014), “Appendix C: Labor Market Effects of the Affordable Care Act: Updated Estimates,” from *The Budget and Economic Outlook: 2014 to 2024*, available at <http://www.cbo.gov/sites/default/files/cbofiles/attachments/45010-breakout-AppendixC.pdf>.
- Brigitte C. Madrian (1994), “Employment-Based Health Insurance and Job Mobility: Is There Evidence of Job Lock?,” *Quarterly Journal of Economics* 109(1), pp. 27-54.
- Katherine Baicker, Amy Finkelstein, Jae Song, and Sarah Taubman, (2014), “The Impact of Medicaid on Labor Market Activity and Program Participation: Evidence from the Oregon Health Insurance Experiment,” *American Economic Review: Papers and Proceedings*, 104(5), pp. 322-328.
- **Craig Garthwaite, Tal Gross and Matthew Notowidigdo (2014), “Public Health Insurance, Labor Supply, and Employment Lock,” *Quarterly Journal of Economics*, 129 (2): 653-696.**

Lecture 7 (Oct 24): *Health insurance and retirement*

- Brigitte Madrian (1994), “The Effect of Health Insurance on Retirement,” *Brookings Papers on Economic Activity*, 1994(1), pp. 181-232.
- Jonathan Gruber and Brigitte C. Madrian (1995). “Health Insurance Availability and the Retirement Decision,” *American Economic Review* 85(4): 938-948.
- Steven Nyce, Sylvester Schieber, John B. Shoven, Sita Slavov, and David A. Wise (2013), “Does Retiree Health Insurance Encourage Early Retirement?” *Journal of Public Economics*, 104, pp. 40-51.

- Maria Fitzpatrick (2014), “Retiree Health Insurance for Public School Employees: Does it Affect Retirement and Mobility?” *Journal of Health Economics*, (2014) 88-98.

Topic 3: Social Security, Pensions and Saving for Retirement

Lecture 8 (Nov 5): *Pensions and labor supply*

- Congressional Research Service (2019), “Worker Participation in Employer-Sponsored Pensions: A Fact Sheet,” <https://crsreports.congress.gov/product/pdf/R/R43439>.
